

# Workshop: PINE NEEDLES FELTING

WITH Leiko Uchiyama <http://www.leikofelt.com>

## PINE NEEDLES

Pine-Needle technique is a unique technique of wet felt making. I was inspired by the pine needles spread on the snow in one winter morning in my home town, Sapporo. Pine Needles is lacy fine felt, it is very soft and delicate but strong enough to wear.

This is something only your clever hands can do and this is what I love.

### Scarf with Pine-Needle I: 3 day class

We are going to make a small sample to learn the basic of the technique and learn how to make it in the scale of a scarf. We will combine the very fine regular felt making which is also good to learn for your own further projects.

This includes making a sample and **the workshop is suited for both experienced and beginning Felters.**

**When:** 9.30 - 4.30, 11, 12, 13 Sept

**Where:** Moonah Arts Centre

**Cost** \$240 (+ \$10 membership of Stitching and Beyond to meet insurance requirements)

**Enquiries:** [SandBworkshops@gmail.com](mailto:SandBworkshops@gmail.com)
