# ***Woven Shibori: Weave to Dye***

**2 day workshop**

**Tutor: Kay Faulkner**

“Shibori is resist dyeing. Loom controlled Shibori or woven Shibori resist achieves a resist by the insertion of a supplementary or extra thread during the weaving process at the same time that the fabric is being woven. Once the fabric is removed from the loom, these threads are pulled up tightly and then the fabric is dyed. This extra thread may be incorporated in the warp or the weft.”
